WHY TRADERS SUPPORT CLUB

Traders Support Club is more than just a training program or a strategy. We are all about working as closely with you as possible so you can learn and apply a proven approach to your trading. All while getting the right feedback and support exactly when you need it.

Here are the three main reasons, hundreds of others, like you, have chosen us.

1

LONGEVITY

We have been actively teaching and coaching traders, both in person and via our three live online trading rooms, since 2009.

Ali and Martin have a combined 32 years of real-time market experience.

We have clocked up well over 15,000 hours of live coaching and live trade analysis, combined with real-time trading support.

2

RESULTS

In addition to trading live, we coach in real-time and track the performance of all our strategies.

Our Telegram Signal Support service is currently at a compounded ROI of over 7,218% since September 2013.

Every student working with us knows that the strategies and processes they use have proven longevity.

3

SUPPORT

At least one form of live feedback is included in each of our programs and packages.

You can access up to 15 hours of live coaching and support each week. Plus the option of live one-to-one coaching and mentoring.

TSC is a community of traders, with many of our students referring to us as their trading family.

WHO ARE TSC?

The Core Trading & Support Team

Ali Crooks

Ali is the owner and founder of TSC and has been trading since 2002. He has worked with some of the top retail Forex and commodities traders in the world.

"I focus my trading around two proven methodologies that I refined over a nine-year period. I help all types of traders, at all levels, ditch their unproductive habits and learn how to approach trading correctly. Often this involves them confronting their emotional hurdles, getting rid of their bad habits, and deploying a system they can have faith in."

Ali has been part of the Rich Dad Education Board of Global Advisors. He has been a keynote speaker at the Masters of Wealth global tour, teaching delegates his skills, insights, and passion for trading. He has been a headline speaker at ShowFX World, the London Forex Expo, Instaforex, and Scandex. Ali has also run his own trading room since 2012, with his swing trade signal service achieving a compounded return of over 7,218% ROI since its inception in 2013.

He is one of only a few retail traders in the UK who are authorised money managers for London & Eastern LLP (FCA ref 534484).

Martin Dimtsov

Martin started out as a TSC student back in 2014 after moving to London in search of a different life.

He came to the UK from Bulgaria with just £500 in his pocket and a heavily pregnant wife. Martin got himself a job as a night shift security guard and spent much of each day, after his shift, learning directly from Ali in this trading room.

Martin has a very disciplined approach to his trading and this fits completely with the TSC ethos of being hyper-focused, and ruthlessly disciplined, along with a heavily data-orientated approach to his trading.

Martin runs TSC's early morning day trading room, where he helps students who want to day trade alongside their main vocation. His direct and actionable coaching is backed up by thousands of hours of live trading, coaching, and back-testing experience.

Sarah Crooks

Ali's longstanding better half is the one that keeps Traders Support Club running smoothly.

Sarah takes care of all the administration, payments, and membership upgrades.

She is on hand to help with any questions you have. She will also make sure you have access to everything you need to make the most of the support and coaching on offer.

WHAT OUR CLIENTS ARE SAYING ABOUT TRADERS SUPPORT CLUB

P

I had been trading for 5 years prior to joining TSC. I had paid for 6-7 other high profile online training courses which taught me a lot but did not help me with becoming consistent or profitable at all. I spent these 5 years losing money and or being at break even.

I have been with TSC for 1 year now and after 6 months of hard work I have become fully able to trade purely off my own analysis and judgment and have been profitable and consistent over the last 6 months.

James Blore

M

Ali & the team are incredible!! Took an absolute novice like me and in a month, I got really comfortable reading and understanding markets. 100% fully available back up and they always have time to answer any questions I've had. Couldn't have made a better decision than joining TSC

Michael Albert

M

If you want to get into trading this is a fantastic organisation which offers realistic, well implemented, long term training to help make you understand the stock markets.

Matthew Peacock

C

I've been a member of TSC for a number of years and have benefited significantly from their coaching and continued support. I would highly recommend them to anybody who wants to start or become more proficient in trading.

Craig Tout

R

Wonderful concept and implementation! A hybrid between an academy and a club. The infrastructure is very good and useful and trading is way more easy, fun and engaging when done in a group. I learned lots and also I had the chance to join a group of like minded, trading focused people. It's also a very friendly and positive group and that is a big plus, for me.

Robert Stoinea

J

A great place to learn trading from knowing zero to understanding charts & strategies. The coaches are there to guide you, check your mindset and your analysis. They support & give you feedback all the way.

TRAINING PROGRAM & PACKAGE OBJECTIVES

Since 2009, each of our programs and coaching models are made to address the major issues that hold so many traders back.

INFORMATION OVERWHELM

The information available on the Internet is often conflicting and misleading. Often, without an active feedback loop, you are not able to determine whether what you are applying is actually effective.

As a result, we cut through all the hype and show you what really works and how to apply it in order to achieve success.

LACK OF PROVEN STRATEGIES

All of the strategies we provide you with have been tested and traded live both by us and the students in the TSC community.

All our processes have been tested and refined in our live online trading rooms, with some testing dating back as far as 1996.

LACK OF DATA COLLECTION, APPLICATION & JOURNALING KNOW HOW

So many trader education companies talk about the importance of data collection and journaling, but never show you how to do it. This critical factor to your trading success is delivered in every one of our programs and packages.

We live and breathe this at every level of TSC and we expect the same from every student.

LIKE MINDED FRIENDLY TRADING COMMUNITY

They can be old hands who have been around for years or new members who have only been with us for a short time. Everyone at TSC remembers what it was like to start out and they are also there to help you.

Whether it is through live sessions or our Telegram Groups, the more you ask for help, the more we will be able to assist you.

EFFECTIVE NO NONSENSE REAL TIME COACHING AND ACCOUNTABILITY

So often the trader knows what to do but isn't doing it, which is where Ali and his team's high-level accountability comes in. There are times when a trader may "think" they know what the problem is, but still end up going round in circles - some for years.

Our coaching can save you a great deal of time, money and stress IF you are willing to take our advice on board.

THE RIGHT TRAINING FOR YOU

To make the most of your trading program with us, it is imperative to know what you are trying to accomplish.

We've worked with traders from all walks of life, both novice and experienced. This includes ex-city traders making the switch to retail trading, to retired engineers, and single mothers who have never seen a chart before.

You can work with us at whichever level suits you best.

(Access to Elite and Total Trader are subject to spaces being available)

THE ELITE ONE TO ONE COACHING & MENTORING PACKAGE

"As a qualified coach, professional trader, and FCA-regulated money manager, I have put in over 10,000hrs of live active trader coaching, both one-to-one and in our Live Trading Rooms.

Working with me personally is the fastest and most effective way to get unparalleled feedback and lock in the key trading strategies, methodologies, and successful trading habits specific to your trading goals."

This program allows you learn exclusively with me on a one to one basis.

We only make available a handful of spaces on the Elite Coaching Package each year.

As part of our exclusive one-to-one coaching package, you will also have access to the entire Total Trader package.
